Introduction

Welcome to the In-Market Order Management Specialist Self-Directed Learning Guide!

To onboard you in your new role as an Order Management Specialist, the Self-Directed Learning Guide (SDLG) provides the information you need to complete the training identified in your Individual Learning Plan (ILP). The SDLG provides details and instructions for training on each product/service in your ILP – whether it's a learning activity such as an order management process review or online course, reviewing resources such as M&Ps or job aids, or a side-by-side activity to learn on the job. If you previously worked in a Cox service delivery position or are new to your role, the SDLG provides the structure you need to quickly onboard as an Order Management Specialist.

How is Order Management Changing?

Cox Business is introducing changes to the way it manages orders for some of its products through a new operating model with standardized order management processes. The new approach will allow for significant reductions in operating costs, greater productivity, faster order activation intervals, and an improved customer experience.

Two new positions have been created, Order Management Specialist I and II, that combine the Order Coordinator and Sales Support functions.

- The Order Management Specialist I handles simple orders, IP Centrex orders with fewer than 10 phones, and Hybrid Fiber Coax without Fiber.
- The Order Management Specialist II handles everything the Specialist I handles but also Hybrid Fiber Coax with Fiber, simple plus orders, and in the future, additional complex functions and products.

Changes to the Order Management Process Flow

The new Order Management process flow has been streamlined into three major tasks: Support, Order Entry, and Customer Acceptance. Please note support tools are region-specific: ICOMS/BID – California; TOMS – Virginia; and, ICOMS/OPTIX - all other regions.

Support

In the Simple Support task, the Order Management Specialist first assesses the scope of the project to be worked. Then he or she completes the project checklist and uses appropriate support tools, including ICOMS, OPTIX, BID (CA), or TOMS (VA) to analyze the serviceability of the project.

Order Entry

Order entry tasks start with entering the work order into ICOMS or TOMS (VA). For CBI orders, additional provisioning is often needed. This can include adding a Static IP address, adding Web Hosting Services and creating email accounts. Additional provisioning may also be needed to create or edit the Customer's MyAccount Profile.

When additional provisioning is complete, the OM Specialist determines if service validation is required. For Voice orders, he or she makes a test call. For CBI orders with speed upgrades, the Specialist checks Edgehealth to verify the correct speed.

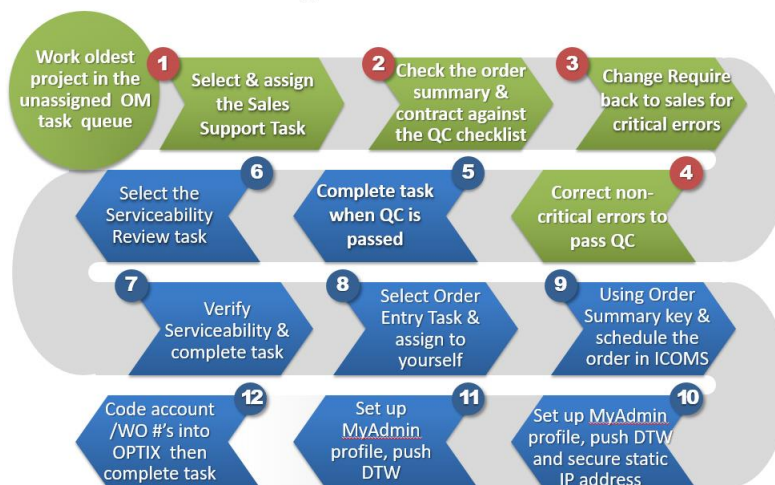

When the Service Validation step is complete, the OM Specialist notifies the customer with a confirmation email or phone call. During the scheduling task, the Specialist first determines if the order has a service date. If not, the order is placed in Pending status. Next, the OM Specialist determines if a new port is needed. If so, the order is also placed in pending status. Then, if the order is "office only," meaning no port is required, the order process can continue. If a port is needed, the OM Specialist arranges for the installation.

Customer Acceptance

During Customer Acceptance tasks, the OM Specialist verifies that validation is complete in ICOMS or TOMS (VA). If not, he or she reconciles the status with dispatch in the Communications Center. If dispatch cannot reconcile the order, it is sent back to the Order Management Specialist to be reconciled in ICOMS or TOMS (VA) and then OPTIX or BID (CA). If dispatch reconciles the order, the OM Specialist completes it in ICOMS or TOMS (VA) and adds the check-in date to OPTIX/BID/TOMS depending on the region, so that it matches. At this point, the Customer Acceptance task is complete.

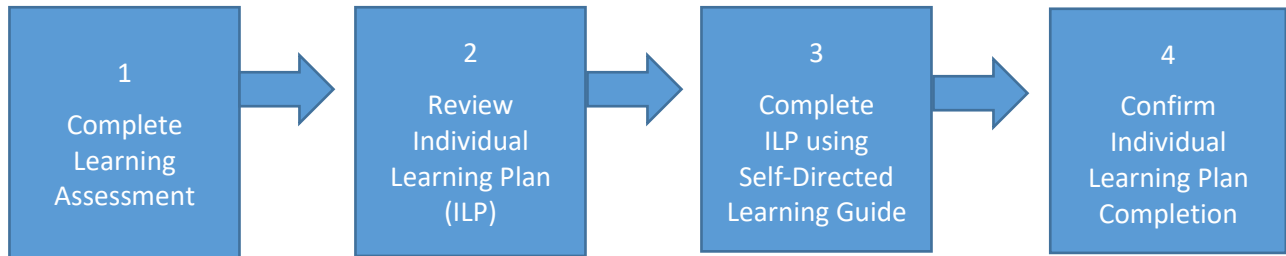

Below is a very high-level diagram of the new end-to-end order management tasks. Full details on the Simple Order Management Process flow can be found in iGrafx (see instructions under the *Locating Resources* section of this Guide).

Order Management End to End Tasks

Training Program for Order Management Specialists

A training program for Order Management Specialists has been developed to help orient you to your new role as quickly as possible. You should have already completed steps 1 and 2 below and be ready to begin step 3 using the Self-Directed Learning Guide.

Below is a brief description of the training program for Order Management Specialists.

1. **Learning Assessment** - Complete the online Learning Assessment for Order Management Specialists, if you have not already done so. The Assessment can be found in the CoxOne Cox Business myLearning site under the section “Cox Orientation and New Hire – In-Market” (see the **Locating Resources** section of this Guide).
2. **Individual Learning Plan** - Your Individual Learning Plan will be generated based on your Learning Assessment responses. Review the identified learning activities with your Supervisor.
3. **Self-Directed Learning Guide** - Refer to the Self-Directed Learning Guide to complete the learning activities identified in Individual Learning Plan in consultation with your Supervisor. Print out a copy of the Guide and have the Supervisor sign to confirm completion as instructed. You and your Supervisor will determine a schedule to complete the learning activities in your Individual Learning Plan using the Self-Directed Learning Guide.
4. **Individual Learning Plan Completion** - When all learning activities identified in your Individual Learning Plan are completed, your Supervisor has signed off on these activities in the Self-Directed Learning Guide. Then, go to Learn@Cox to confirm your training is completed (see the **Individual Learning Plan Completion** section of this Guide).

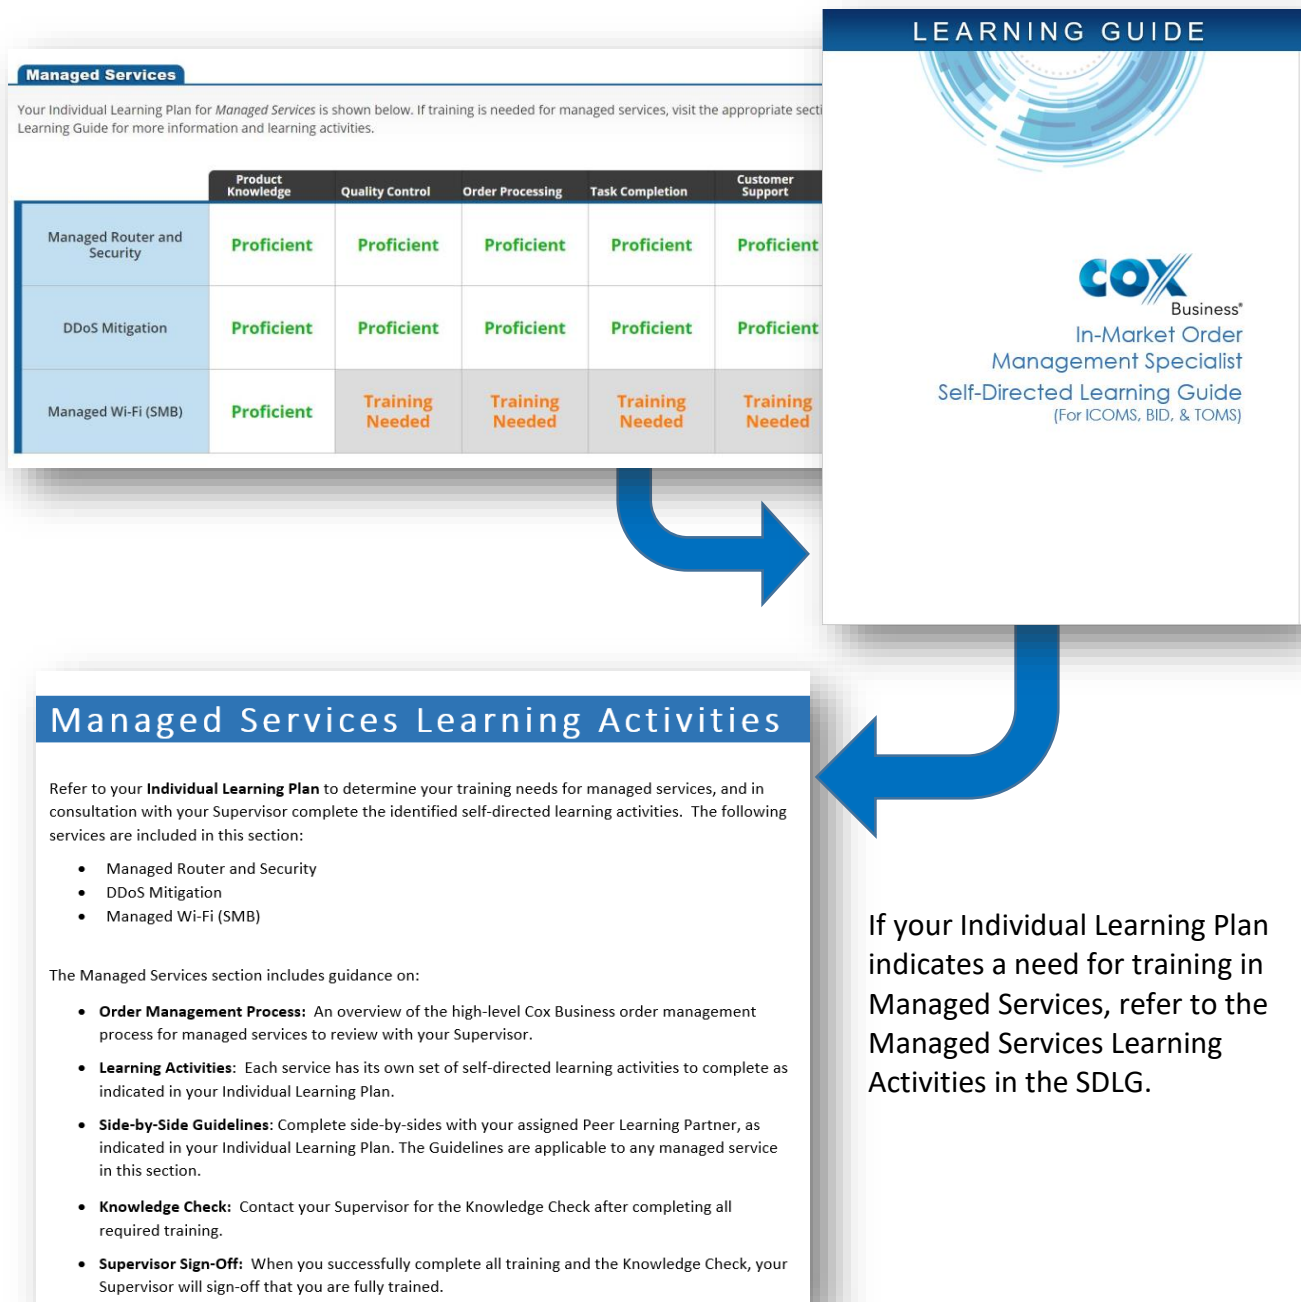

Continue to the **Getting Started** section of this Guide to begin your training.

Getting Started

Your Individual Learning Plan identifies the training you need to be successful in your new role, and the Self-Directed Learning Guide provides information on the learning activities that will help you complete that training.

In addition to your Individual Learning Plan, training is required for all Order Management Specialists on new hire orientation, compliance, contracts, and accounts. Go to the section on **Other Required Courses (not in ILP)** and follow the instructions to complete this training.

The graphic below shows an example of how to match up identified ILP training needs to the learning activities found in the SDLG.

If your Individual Learning Plan indicates a need for training in Managed Services, refer to the Managed Services Learning Activities in the SDLG.

How to use the Self-Directed Learning Guide

To use the SDLG effectively, you will need to complete the following steps.

1. Orient yourself to the SDLG by reviewing the **Introduction**.
2. Go to the **Locating Resources** section of the SDLG and review the instructions for accessing the CoxOne Cox Business Product myLearning site, where most resources listed in the SDLG are housed. This section also includes information on how to access iGrafx. Links are provided in the SDLG for all Learn@Cox courses.
3. In the SDLG, notate the training identified in your Individual Learning Plan, as indicated in the example below.

Check off the ☒ **Assigned** box if training needed.

Check off the ☒ **Completed** box, when training is completed.

Status	Self-Directed Learning Activities
<input checked="" type="checkbox"/> Assigned <input type="checkbox"/> Completed	Product Knowledge <input type="checkbox"/> Learn: Go to Cox U via myLearning and complete the following course(s) in the section <i>CB Video/Hospitality – In-Market</i> . <ul style="list-style-type: none">– Contour on Campus Product Overview [Course ID: CCICBCS0147]– Contour on CB Product Blast [Course ID: CCICBCS0445] <input type="checkbox"/> Side-by-Side: Refer to the Video Side-by-Side Guidelines.
<input checked="" type="checkbox"/> Assigned <input type="checkbox"/> Completed	Quality Control Tasks <input type="checkbox"/> Side-by-Side: Refer to the Video Side-by-Side Guidelines.
<input checked="" type="checkbox"/> Assigned <input type="checkbox"/> Completed	Order Processing <input type="checkbox"/> Learn: Access and review the following resource link(s). <ul style="list-style-type: none">– Contour on Campus – ICOMS <input type="checkbox"/> Side-by-Side: Refer to the Video Side-by-Side Guidelines.
<input checked="" type="checkbox"/> Assigned <input type="checkbox"/> Completed	Task Completion <input type="checkbox"/> Side-by-Side: Refer to the Video Side-by-Side Guidelines.
<input checked="" type="checkbox"/> Assigned <input type="checkbox"/> Completed	Customer Support <input type="checkbox"/> Side-by-Side: Refer to the Video Side-by-Side Guidelines.
<input checked="" type="checkbox"/> Assigned <input type="checkbox"/> Completed	Escalations <input type="checkbox"/> Side-by-Side: Refer to the Video Side-by-Side Guidelines.

4. Consult with your Supervisor on your ILP and schedule time to complete the learning activities. You will be assigned a Peer Learning Partner to assist you with side-by-side activities.
5. Complete the ILP identified learning activities using the guidance in the SDLG. This will include:
 - a. **Process Overviews** - You will discuss the high-level OM process steps for video, Internet and web, etc., with your Supervisor to ensure you understand the new process steps.
 - b. **Product/Service Training** – Complete all assigned courses and access and review all resources listed for each product/service.
 - c. **Side-by-Side Activities** – Complete side-by-sides activities for products/services with your assigned Peer Learning Partner after completing all required coursework and reviewing resources.

6. When you finish all the training in a category, such as video, complete the Video Knowledge Check as assigned by your Supervisor.
7. If you successfully complete the Knowledge Check, your Supervisor will sign-off that you have successfully completed your training for that category of products/services. You will need to complete all assigned training for all categories.
8. When you complete ALL the training identified in the ILP, your Supervisor will sign-off to confirm. You will then follow the instructions in the **Individual Learning Plan Completion** section of this guide to confirm your completion of your ILP training in Learn@Cox.
9. Remember to also complete the training listed in the **Other Required Courses** section of this Guide. This training is not included in your ILP, but is required for all Order Management Specialists.

Locating Resources

The **CoxOne Cox Business myLearning** site for Order Management Specialists - In-Market provides quick access links to job aids and M&Ps, identified in the Self-Directed Learning Guide. Instructions for accessing myLearning are detailed below, as well as how to view the **Simple Order Management Process Flow** in iGrafx. A list of all courses and documents with related links can be found in Appendix A.

Accessing the CB MyLearning Site for Order Management - In-Market

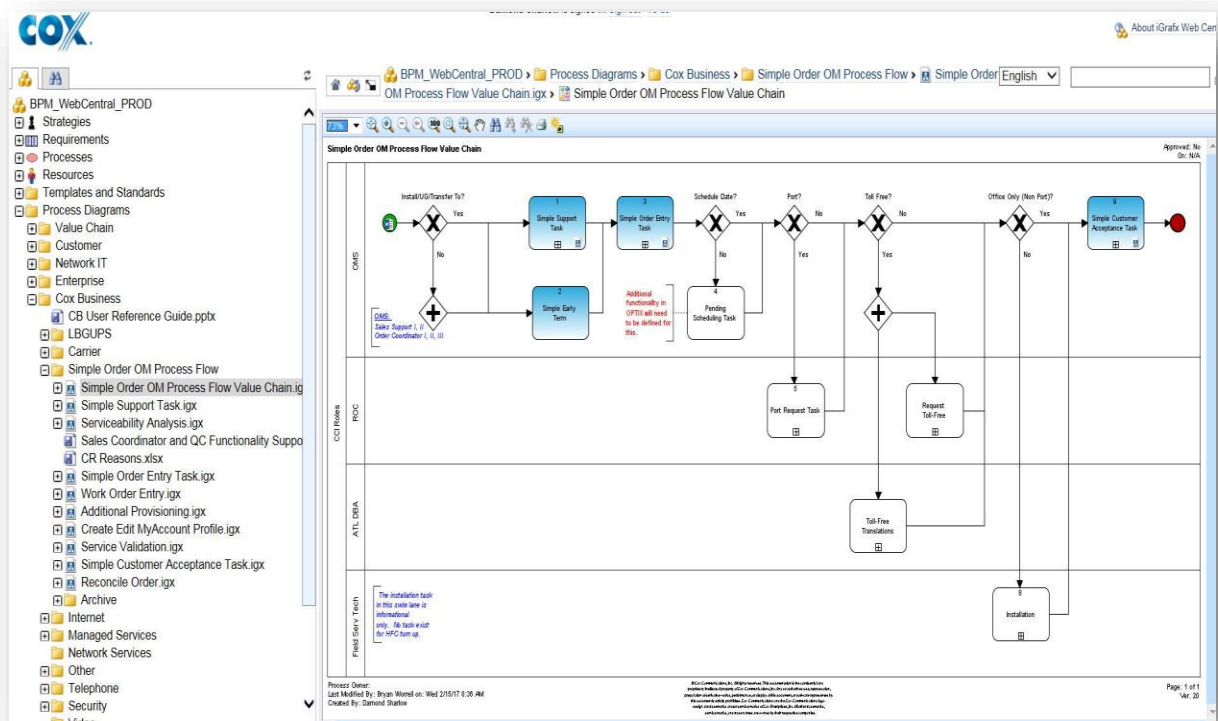

1. Go to directly to the [CoxOne CB MyLearning - Order Management – In-Market site](#) (link). Bookmark site for quick access to it later. Learn@Cox and TOMS M&Ps can be accessed from the MyLearning link.
2. The MyLearning site for Order Management – In-Market is organized into the following sections (screenshot below).
 - Cox Orientation and New Hire – In-Market
 - Compliance – In-Market
 - CB Contracts and Accounts – In-Market
 - Systems and Tools
 - CB Video/Hospitality – In-Market
 - CB Internet Services – In-Market
 - CB Voice – In-Market
 - Managed Services – In-Market
 - Networking Services – In-Market
 - CB References and Resources – In-Market (includes access to CoxOne Cox Business Product site)

iGrafx Web Central

iGrafx is a process mapping tool that also serves as a repository for Cox Business order management process maps. The **Simple Order OM Process Flow** identifies the key tasks completed by Order Management Specialists to process orders, and can be found in iGrafx in the Cox Business folder.

1. Go to the following link: <http://catl0as1503/webcentral>
2. Select **BPM_WebCentral_PROD** and enter your enterprise credentials using corp\ and select OK.
3. Select the **Cox Business** folder, then the **Simple Order OM Process Flow** folder.
4. Select the **Simple Order OM Process Flow Value Chain.pdf** to view. The PDF will appear to the right of the folder structure. Click on the icon  shown in the process steps to expand out sub-processes.

Other Required Courses (not in Individual Learning Plan)

All Order Management Specialists are required to complete additional courses not included in the Individual Learning Plan. These courses can be completed concurrently with your Individual Learning Plan training and can be found on the CoxOne Cox Business Product site (see **Locating Resources** section of this Guide).

Cox Orientation and New Hire Training – In-Market

- ☐ **Cox Orientation and New Hire, In-Market** (if you are a new hire)

Compliance - In-Market

If you are new to Cox, there are compliance courses you must complete within the first 30 days on the job. Go to the myLearning site, then launch and complete the courses listed below. If you transferred into this position you may have already taken these courses; please note the **Cox Business – Signature and Spend Training** course was added in February 2017.

- ☐ Doing Business Right – Our Code of Conduct & Attestation
- ☐ Information Security & Privacy (Consent Decree)
- ☐ Building a Culture of Inclusion for Employees
- ☐ Protecting Customer Information: CPNI & Privacy (CB Version)
- ☐ Universal Hazardous Waste for California (CA only)
- ☐ Illness & Injury (CA only)
- ☐ Identity Theft Program
- ☐ Cox Business – Signature and Spend Training (added February 2017)

Contracts and Accounts - In-Market

Go to the myLearning site, then launch and complete the following contracts and accounts courses.

- ☐ Cox Business Tax Exempt Process
- ☐ Tax Exemption Process for Cox Business Sales Teams
- ☐ Customer Segmentation Process – Order Management Responsibilities
- ☐ OPTIX Signed Amendment Reduction (SAMDR) Process Training (all regions except VA and CA)

Video / Hospitality Learning Activities

Refer to your **Individual Learning Plan** to determine your training needs for video/hospitality, and in consultation with your Supervisor complete the identified self-directed learning activities. The following products and services are included in this section:

Simple Orders

- Cox Business TV
- Contour

Complex Orders

- Contour on Campus
- Bulk HD Select
- HD Free to Guest
- Hospitality TV
- Hospitality Wi-Fi 2.0

The Video/Hospitality section includes guidance on:

- **Order Management Process:** An overview of the high-level Cox Business order management process for video/hospitality to review with your Supervisor.
- **Learning Activities:** Each service or product has its own set of self-directed learning activities to complete as indicated in your Individual Learning Plan.
- **Side-by-Side Guidelines:** Complete side-by-sides with your assigned Peer Learning Partner, as indicated in your Individual Learning Plan. The Guidelines are applicable to any product or service in this section.
- **Knowledge Check:** Contact your Supervisor for the Knowledge Check after completing all required training.
- **Supervisor Sign-Off:** When you successfully complete all training and the Knowledge Check, your Supervisor will sign-off that you are fully trained.

Order Management Process for Video/Hospitality

This high-level overview of the Cox Business order management process for both simple and complex video/hospitality products/services is based on the Cox Business **Simple Order OM Process Flow**, located in iGrafx (for instructions on accessing iGrafx go to the **Locating Resources** section of this Guide).

The Order Management Walkthrough below is designed to facilitate a discussion with your Supervisor to confirm your understanding of the video/hospitality order process. Please be aware that your local market process may differ, especially for complex order processing; continue to follow your local market M&Ps for specific product processing. Please note support tools are region-specific: ICOMS/BID – California; TOMS – Virginia; and, ICOMS/OPTIX - all other regions.

Status	Order Management Walkthrough
<input type="checkbox"/> Assigned <input type="checkbox"/> Reviewed	QC Tasks <ul style="list-style-type: none"> Validate the following areas of the contract: CPNI, contract/service match, and signature existence and spend authority. If there is a contract issue/error, identify if it falls under Amendment Reduction Process guidelines. If yes, correct the error/issue and send an email to the customer. If it doesn't fall under these guidelines, return the contract to Sales for correction.
<input type="checkbox"/> Assigned <input type="checkbox"/> Reviewed	New Install Tasks <ul style="list-style-type: none"> Determine if the address is serviceable and available in ICOMS or TOMS (VA); if yes, create a new account in ICOMS/TOMS. Key in account information: name, authorized users, CPNI, POC, segmentation, category type, reason code, and sale ID number. Key in the monthly reoccurring service codes and one-time service installation codes. Determine if the equipment is balanced, if the pricing is correct, the right number of outlets are identified, and if the TVs are in a private or public space. Schedule work order in appropriate Q-code timeframe, and add in any work order comments. For duplicating/triplicating the same product at one location, ensure separate equipment for each duplication and balance occurrences to make sure it works.

☐ Reviewed

Customer Confirmation Tasks

- ☐ Verify order is complete in ICOMS or TOMS (VA) and send confirmation email to customer.
- ☐ Complete task in OPTIX /ICOMS, BID/ICOMS (CA), or TOMS (VA), and reconcile with the Communications Center group (dispatch).

☐ Assigned

☐ Reviewed

Multi-Location Order

- ☐ Complete the process for setting up accounts in multiple locations.

Video/Hospitality Products

Self-directed learning activities related to simple and complex order management tasks have been developed for each video product offered by Cox Business. Refer to your Individual Learning Plan to determine your training needs and complete the learning activities listed for that video product. Links to resources are provided when available. The Video Side-by-Side Guidelines can be found at the end of this section. Please note support tools are region-specific: ICOMS/BID – California; TOMS – Virginia; and, ICOMS/OPTIX - all other regions. For a consolidated list of all product courses and documents with related links, refer to Appendix A.

Video/Hospitality Side-by-Side Guidelines

The Video Side-by-Side Guidelines can be used with any video product, and are designed to be completed with your assigned Peer Learning Partner. Please be aware that your local market video order processing may differ, especially for complex orders. For specific product processing, please continue to follow your local market M&Ps. Please note support tools are region-specific: ICOMS/BID – California; TOMS – Virginia; and, ICOMS/OPTIX - all other regions.

Side-by-Side Guidelines

Product Knowledge

Discuss the features, packaging, and equipment requirements (if any) for this video product with your assigned side-by-side Peer Learning Partner. Then, demonstrate the following to your partner.

- ☐ Demonstrate knowledge of the product's main features and benefits; explain the product to your Peer Learning Partner as you would to a customer.
- ☐ Share any packaging requirements for the product, describe any work order or equipment requirements, and demonstrate you know where to find applicable service codes.

Quality Control

Observe your assigned side-by-side Peer Learning Partner complete quality control on an order for this product. Then, demonstrate the following to your partner based on available guidelines and checklists. Demonstrate how you would QC an order for this product.

- ☐ Identify several common order mistakes made for this product, demonstrate the process for fixing order errors, and identify when it is appropriate to return an order to Sales using change required functionality in OPTIX, BID (CA), or TOMS (VA).

Order Processing

Observe your assigned side-by-side Peer Learning Partner complete order processing for this product. Then, demonstrate the following to your partner.

- ☐ Determine if the equipment and pricing is correct, the right number of outlets are identified, and if the TVs are in a private or public space.
- ☐ Process the product order in ICOMS or TOMS (VA). Locate a current account in ICOMS/TOMS, key an order for this product into ICOMS/TOMS, and demonstrate knowledge of the correct service codes.
- ☐ Demonstrate how to schedule customer installation for this product, and identify any other tools needed to process this order.
- ☐ Discuss appropriate procedures for service changes, disconnects, reconnects, transfers, and multi-location orders.

Continued on next page.

Task Completion

Observe your assigned side-by-side Peer Learning Partner complete task completion activities for this product. Then, demonstrate the following to your partner.

- ☐ Verify provisioning is accurate and demonstrate how to send an order confirmation email, how to capture documentation in OPTIX, BID (CA), or TOMS (VA) and how to reschedule an installation.
- ☐ Identify any additional OPTIX/BID/TOMS tasks that need to be completed.

Customer Support

Observe your assigned side-by-side Peer Learning Partner complete customer support activities for this product. Then, demonstrate the following to your partner.

- ☐ Identify the most common support/rescheduling requests for this product and how to resolve them to avoid escalations.
- ☐ Role play a conversation with a customer in a professional manner about any order issues; for example, a change in equipment or pricing, or difficulty scheduling installation at a time that works for the customer.

Escalations

- ☐ Discuss with your assigned side-by-side Peer Learning Partner when and how to escalate an incomplete customer order and liaise with the proper department to resolve the issue.

Video/Hospitality Knowledge Check

When you have completed your assigned training, contact your Supervisor to take a Video Knowledge Check. The Knowledge Check will consist of completing an end-to-end order of a video/hospitality product, as determined by your Supervisor.

Video/Hospitality Supervisor Sign-Off

Your Supervisor will discuss the learning activities in this section with you, clarify any outstanding questions, and ensure that either they or a Peer Learning Partner have observed you perform the tasks covered in this section before signing off on competency.

Supervisor Sign-Off

All assigned tasks in the Individual Learning Plan and the Knowledge Check have been completed successfully. Either a Peer Learning Partner or I have observed this employee perform the tasks covered in this section, and I hereby certify that the employee has displayed competency in the order management processes for all Cox Business video products.

Employee signature: _____ **Date:** _____

Supervisor signature: _____ **Date:** _____

Internet and Web Learning Activities

Refer to your **Individual Learning Plan** to determine your training needs for Internet and web, and in consultation with your Supervisor complete the identified self-directed learning activities. The following products and services are included in this section:

Simple Orders

- Cox Business Internet
- Internet Gateway 2.0/Guest Wi-Fi

Complex Orders

- Internet 2.1
- Cox Fiber Internet GPON
- Cox Optical Internet
- Internet Protocol Management Reporting (IPMR)

The Internet and Web section includes guidance on:

- **Order Management Process:** An overview of the high-level Cox Business order management process for Internet and web to review with your Supervisor.
- **Learning Activities:** Each service or product has its own set of self-directed learning activities to complete as indicated in your Individual Learning Plan.
- **Side-by-Side Guidelines:** Complete side-by-sides with your assigned Peer Learning Partner, as indicated in your Individual Learning Plan. The Guidelines are applicable to any product or service in this section.
- **Knowledge Check:** Contact your Supervisor for the Knowledge Check after completing all required training.
- **Supervisor Sign-Off:** When you successfully complete all training and the Knowledge Check, your Supervisor will sign-off that you are fully trained.

Order Management Process for Internet and Web

This high-level overview of the Cox Business order management process for both simple and complex Internet and web products is based on the Cox Business **Simple Order OM Process Flow**, located in iGrafx (for instructions on accessing iGrafx go to the **Locating Resources** section of this Guide).

The Order Management Walkthrough below is designed to facilitate a discussion with your Supervisor to confirm your understanding of the Internet and web order process. Please be aware that your local market process may differ, especially for complex order processing; continue to follow your local market M&Ps for specific product processing. Please note support tools are region-specific: ICOMS/BID – California; TOMS – Virginia; and, ICOMS/OPTIX - all other regions.

Status	Order Management Walkthrough
<input type="checkbox"/> Assigned <input type="checkbox"/> Reviewed	QC Tasks <ul style="list-style-type: none">□ Validate the following areas of the contract: CPNI, contract/service match, and signature existence and spend authority.□ If there is a contract issue/error, identify if it falls under Amendment Reduction Process guidelines. If yes, correct the error/issue and send an email to the customer. If it doesn't fall under these guidelines, return the contract to Sales for correction.
<input type="checkbox"/> Assigned <input type="checkbox"/> Reviewed	New Install Tasks <ul style="list-style-type: none">□ Determine if the address is serviceable and available in ICOMS or TOMS (VA); if yes, create a new account in ICOMS/TOMS.□ Key in account information: name, authorized users, CPNI, POC, segmentation, category type, reason code, and sale ID number. Key in the monthly reoccurring service codes and one-time service installation codes.□ Confirm type of modem or Wi-Fi combo (or other types of equipment for complex products), verify the support speed the customer signed up for, and determine if a static IP address is needed (do not give if not needed).□ Schedule work order in appropriate Q-code timeframe, and add in any work order comments.□ Create a MyAdmin account and static IP address in SOAK, if needed.□ For duplicating/triplicating the same product at one location, ensure separate equipment for each duplication and balance occurrences to make sure it works.
<input type="checkbox"/> Assigned <input type="checkbox"/> Reviewed	Service Change Tasks <ul style="list-style-type: none">□ Locate a current account in ICOMS or TOMS (VA) and add, upgrade, or downgrade service.

Disconnects/Reconnects/Transfers Tasks

- ☐ For disconnects, locate a current account in ICOMS or TOMS (VA) and apply disconnect terms. Determine if an early termination fee (ETF) applies, disconnect service, and determine if equipment needs to be returned and how.
- ☐ For reconnects, locate a current account in ICOMS/TOMS. Determine the reason for the previous disconnect and reconnect service according to guidelines.
- ☐ For transfers, locate to/from accounts in ICOMS/TOMS and transfer service according to guidelines.
- ☐ Use SOAK to delete/re-establish the customer's static IP address.

☐ Assigned

☐ Reviewed

Customer Confirmation Tasks

- ☐ Verify order is complete in ICOMS or TOMS (VA) and send confirmation email to customer.
- ☐ Complete task in OPTIX /ICOMS, BID/ICOMS (CA), or TOMS (VA), and reconcile with the Communications Center group (dispatch).

☐ Assigned

☐ Reviewed

Multi-Location Orders Tasks

- ☐ Complete the process for setting up accounts in multiple locations.

Internet and Web Products

Self-directed learning activities related to simple and complex order management tasks have been developed for each Internet and web product offered by Cox Business. Refer to your Individual Learning Plan to determine your training needs and complete the learning activities listed for that Internet or web product. Links to resources are provided when available. The Internet/Web Side-by-Side Guidelines can be found at the end of this section. Please note support tools are region-specific: ICOMS/BID – California; TOMS – Virginia; and, ICOMS/OPTIX - all other regions. For a consolidated list of all product courses and documents with related links, refer to Appendix A.

Internet and Web Side-by-Side Guidelines

The Internet and Web Side-by-Side Guidelines can be used with any Internet and web product, and are designed to be completed with your assigned Peer Learning Partner. Please be aware that your local market Internet and web product processing may differ, especially for complex orders. For specific product processing, please continue to follow your local market M&Ps. Please note support tools are region-specific: ICOMS/BID – California; TOMS – Virginia; and, ICOMS/OPTIX - all other regions.

Side-by-Side Guidelines

Product Knowledge

Discuss the features, packaging, and equipment requirements (if any) for this product with your assigned side-by-side Peer Learning Partner. Then, demonstrate the following to your partner.

- ☐ Demonstrate knowledge of the product's main features and benefits; explain the product as you would to a customer.
- ☐ Share any packaging requirements for the product, describe any work order or equipment requirements, and demonstrate you know where to find applicable service codes.

Quality Control

Observe your assigned side-by-side Peer Learning Partner complete quality control on an order for this product. Then, demonstrate the following to your partner based on available guidelines and checklists.

- ☐ Demonstrate how you would QC an order for this product.
- ☐ Identify several common order mistakes made for this product, demonstrate the process for fixing order errors, and identify when it is appropriate to return an order to Sales using change required functionality in OPTIX, BID (CA), or TOMS (VA).

Order Processing

Observe your assigned side-by-side Peer Learning Partner complete order processing for this product. Then, demonstrate the following to your partner.

- ☐ Confirm type of modem or Wi-Fi combo (or other equipment), verify the support speed the customer signed up for, and determine if a static IP address is needed (do not give if not needed).
- ☐ Process the product order in ICOMS or TOMS (VA). Locate a current account in ICOMS/TOMS, key an order for this product into ICOMS/TOMS, and demonstrate knowledge of the correct service codes.
- ☐ Demonstrate how to schedule customer installation for this product, and identify any other tools needed to process this order.
- ☐ Create a MyAdmin account and establish a static (if necessary) or dynamic IP address in SOAK.
- ☐ Discuss appropriate procedures for service changes, disconnects, reconnects, transfers, and dual/triple orders.

Continued on next page.

Task Completion

Observe your assigned side-by-side Peer Learning Partner complete task completion activities for this product. Then, demonstrate the following to your partner.

- Verify provisioning is accurate and demonstrate how to send an order confirmation email, how to capture documentation in OPTIX, BID (CA), or TOMS (VA) and how to reschedule an installation.
- Identify any additional OPTIX/BID/TOMS tasks that need to be completed.

Customer Support

Observe your assigned side-by-side Peer Learning Partner complete customer support activities for this product. Then, demonstrate the following to your partner.

- Identify the most common support/rescheduling requests for this product and how to resolve them to avoid escalations.
- Role play a conversation with a customer in a professional manner about any order issues; for example, you might want to role play a conversation about the difference between a static IP address and dynamic IP address, and why the customer has a type on his/her account.

Escalations

- Discuss with your assigned side-by-side Peer Learning Partner when and how to escalate an incomplete customer order and liaise with the proper department to resolve the issue.

Internet and Web Knowledge Check

When you have completed your assigned training, contact your Supervisor to take an Internet and Web Knowledge Check. The Knowledge Check will consist of completing an end-to-end order of an Internet or web product, as determined by your Supervisor.

Internet and Web Supervisor Sign-Off

Your Supervisor will discuss the learning activities in this section with you, clarify any outstanding questions, and ensure that either they or a Peer Learning Partner have observed you perform the tasks covered in this section before signing off on competency.

Supervisor Sign-Off

All assigned tasks in the Individual Learning Plan and the Knowledge Check have been completed successfully. Either a Peer Learning Partner or I have observed this employee perform the tasks covered in this section, and I hereby certify that the employee has displayed competency in the order management processes for all Cox Business Internet and web products.

Employee signature: _____ **Date:** _____

Supervisor signature: _____ **Date:** _____

Voice Services Learning Activities

Refer to your **Individual Learning Plan** to determine your training needs for voice services, and in consultation with your Supervisor complete the identified self-directed learning activities. The following services are included in this section:

Simple Orders

- VoiceManager
- IP Centrex Squared

Complex Orders

- IP Centrex
- SIP Trunking
- PRI over HFC
- High Capacity PRI

Other Complex Orders

- Virtual Numbering Service
- VM Auto Attendance
- VM Hunting
- Voicemail Fax to Email MIAB
- Service Assurance Plan
- IPC Call Center
- IPC Receptionist Console
- Telecommunications Service Priority
- Calix ONT and Calix B6
- e911 and Emergency Locator Service

The Voice Services section includes guidance on:

- **Order Management Process:** An overview of the high-level Cox Business order management process for voice services to review with your Supervisor.
- **Learning Activities:** Each service has its own set of self-directed learning activities to complete as indicated in your Individual Learning Plan.
- **Side-by-Side Guidelines:** Complete side-by-sides with your assigned Peer Learning Partner, as indicated in your Individual Learning Plan. The Guidelines are applicable to any service in this section.
- **Knowledge Check:** Contact your Supervisor for the Knowledge Check after completing all required training.
- **Supervisor Sign-Off:** When you successfully complete all training and the Knowledge Check, your Supervisor will sign-off that you are fully trained.

Order Management Process for Voice Services

This high-level overview of the Cox Business order management process for both simple and complex voice services is based on the Cox Business **Simple Order OM Process Flow**, located in iGrafx (for instructions on accessing iGrafx go to the **Locating Resources** section of this Guide).

The Order Management Walkthrough below is designed to facilitate a discussion with your Supervisor to confirm your understanding of the voice service order processes. Please be aware that your local market process may differ, especially for complex order processing; continue to follow your local market M&Ps for specific product processing. Please note support tools are region-specific: ICOMS/BID – California; TOMS – Virginia; and, ICOMS/OPTIX - all other regions.

Status	Order Management Walkthrough
<input type="checkbox"/> Assigned <input type="checkbox"/> Reviewed	QC Tasks <ul style="list-style-type: none">□ Validate the following areas of the contract: CPNI, contract/service match, signature existence and spend authority, porting, and toll-free documents. Request a CSR and bill copy information.□ If there is a contract issue/error, identify if it falls under Amendment Reduction Process guidelines. If yes, correct the error/issue and send an email to the customer. If it doesn't fall under these guidelines, return the contract to Sales for correction.
<input type="checkbox"/> Assigned <input type="checkbox"/> Reviewed	New Install Tasks <ul style="list-style-type: none">□ Determine if the address is serviceable and available in ICOMS or TOMS (VA); if yes, create a new account in ICOMS/TOMS.□ Key in account information: name, authorized users, CPNI, POC, segmentation, category type, reason code, and sale ID number.□ ICOMS/TOMS determines rate center; key in the monthly reoccurring service codes and one-time service installation codes.□ Identify if a port and ensure appropriate documentation, double-check correct fees, identify features customer wants, and ensure provisioning in DTW. Determine directory listing, PIC (long distance) and LPIC (local long distance).□ Identify the number of seats, paths, and additional lines for the key system.□ Schedule work order in appropriate Q-code timeframe, and add in any work order comments.□ Create a MyAdmin account.□ Discuss appropriate procedures for service changes, disconnects, reconnects, and dual/triple orders.□ Perform installation tasks when FSR is on-site, as appropriate for product.□ For duplicating/triplicating orders, if want both VoiceManager and IP Centrex, must have separate ICOMS/TOMS accounts and merge into one bill.

Service Change Tasks

- ☐ Locate a current account in ICOMS or TOMS (VA) and add, upgrade, or downgrade service.

- ☐ Assigned
- ☐ Reviewed

Disconnects/Reconnects/Transfers Tasks

- ☐ For disconnects, locate a current account in ICOMS or TOMS (VA) and apply disconnect terms. Determine if an early termination fee (ETF) applies, disconnect service, and determine if equipment needs to be returned and how.
- ☐ For reconnects, locate a current account in ICOMS/TOMS. Determine the reason for the previous disconnect and reconnect service according to guidelines.
- ☐ For transfers, locate to/from accounts in ICOMS/TOMS and transfer service according to guidelines.

- ☐ Assigned
- ☐ Reviewed

Customer Confirmation Tasks

- ☐ Verify order is complete in ICOMS or TOMS (VA) and send confirmation email to customer.
- ☐ Complete task in OPTIX /ICOMS, BID/ICOMS (CA), or TOMS (VA), and reconcile with the Communications Center group (dispatch).

- ☐ Assigned
- ☐ Reviewed

Multi-Location Tasks

- ☐ Complete the process for setting up accounts in multiple locations.

Voice Services

Self-directed learning activities related to simple and complex order management tasks have been developed for each voice service offered by Cox Business. Refer to your Individual Learning Plan to determine your training needs and complete the learning activities listed for that voice service. Links to resources are provided when available. The Voice Side-by-Side Guidelines can be found at the end of this section. Please note support tools are region-specific: ICOMS/BID – California; TOMS – Virginia; and, ICOMS/OPTIX - all other regions. For a consolidated list of all product courses and documents with related links, refer to Appendix A.

VoiceManager (Simple Orders)

Voice Side-by-Side Guidelines

The Voice Side-by-Side Guidelines can be used with any voice service and are designed to be completed with your assigned Peer Learning Partner. Please be aware that your local market voice service processing may differ, especially for complex orders. For specific product processing, please continue to follow your local market M&Ps. Please note support tools are region-specific: ICOMS/BID – California; TOMS – Virginia; and, ICOMS/OPTIX - all other regions.

Side-by-Sides Guidelines

Product Knowledge: Discuss the features, packaging, and equipment requirements (if any) for this voice service with your assigned side-by-side Peer Learning Partner. Then, demonstrate the following to your partner.

- ☐ Demonstrate knowledge of the service's main features and benefits; explain the service as you would to a customer.
- ☐ Share any packaging requirements for the service, describe any work order or equipment requirements, and demonstrate you know where to find applicable service codes.

Quality Control: Observe your assigned side-by-side Peer Learning Partner complete quality control on an order for this service. Then, demonstrate the following to your learning partner based on available guidelines and checklists.

- ☐ Demonstrate how you would QC an order for this service.
- ☐ Identify several common order mistakes made for this service, demonstrate the process for fixing order errors, and identify when it is appropriate to return an order to Sales using change required functionality in OPTIX, BID (CA), or TOMS (VA).

Order Processing: Observe your assigned side-by-side Peer Learning Partner complete order processing for this service. Then, demonstrate the following to your partner.

- ☐ Determine directory listing, PIC (long distance) and LPIC (local long distance), identify if a port and ensure appropriate documentation, double-check correct fees, identify features customer wants, and ensure provisioning in DTW.
- ☐ Verify the number of seats, paths, and additional lines.
- ☐ Process the service order in ICOMS or TOMS (VA). Locate a current account in ICOMS/TOMS, key an order for this service into ICOMS/TOMS, and demonstrate knowledge of the correct service codes.
- ☐ Demonstrate how to schedule customer installation for this service, and identify any other tools needed to process this order.
- ☐ Create a MyAdmin account.
- ☐ Discuss appropriate procedures for service changes, disconnects, reconnects, transfers, and dual/triple orders.

Continued on next page.

Task Completion: Observe your assigned side-by-side Peer Learning Partner complete task completion activities for this service. Then, demonstrate the following to your partner.

- ❑ Verify provisioning is accurate and demonstrate how to send an order confirmation email, how to capture documentation in OPTIX, BID (CA), or TOMS (VA) and how to reschedule an installation.
- ❑ Identify any additional OPTIX/BID/TOMS tasks that need to be completed.

Customer Support: Observe your assigned side-by-side Peer Learning Partner complete customer support activities for this service. Then, demonstrate the following to your partner.

- ❑ Identify the most common support/rescheduling requests for this service and how to resolve them to avoid escalations.
- ❑ Role play a conversation with a customer in a professional manner about any order issues; for example, a change in equipment or pricing, or difficulty scheduling an installation at a time that works for a customer.

Escalations:

- ❑ Discuss with your assigned side-by-side Peer Learning Partner when and how to escalate an incomplete customer order and liaise with the proper department to resolve the issue.

Voice Knowledge Check

When you have completed your assigned training, contact your Supervisor to take a Voice Knowledge Check. The Knowledge Check will consist of completing an end-to-end order of a voice service, as determined by your Supervisor.

Voice Process Supervisor Sign-Off

Your Supervisor will discuss the learning activities in this section with you, clarify any outstanding questions, and ensure that either they or a Peer Learning Partner have observed you perform the tasks covered in this section before signing off on competency.

Supervisor Sign-Off

All assigned tasks in the Individual Learning Plan and the Knowledge Check have been completed successfully. Either a Peer Learning Partner or I have observed this employee perform the tasks covered in this section, and I hereby certify that the employee has displayed competency in the order management processes for all Cox Business voice services.

Employee signature: _____ **Date:** _____

Supervisor signature: _____ **Date:** _____

Managed Services Learning Activities

Refer to your **Individual Learning Plan** to determine your training needs for managed services, and in consultation with your Supervisor complete the identified self-directed learning activities. The following services are included in this section:

- Managed Router and Security
- DDoS Mitigation
- Managed Wi-Fi (SMB)

The Managed Services section includes guidance on:

- **Order Management Process:** An overview of the high-level Cox Business order management process for managed services to review with your Supervisor.
- **Learning Activities:** Each service has its own set of self-directed learning activities to complete as indicated in your Individual Learning Plan.
- **Side-by-Side Guidelines:** Complete side-by-sides with your assigned Peer Learning Partner, as indicated in your Individual Learning Plan. The Guidelines are applicable to any managed service in this section.
- **Knowledge Check:** Contact your Supervisor for the Knowledge Check after completing all required training.
- **Supervisor Sign-Off:** When you successfully complete all training and the Knowledge Check, your Supervisor will sign-off that you are fully trained.

Order Management Process for Managed Services

This high-level overview of the Cox Business order management process for managed services is based on the Cox Business **Simple Order OM Process Flow**, located in iGrafx (for instructions on accessing iGrafx go to the **Locating Resources** section of this Guide).

The Order Management Walkthrough below is designed to facilitate a discussion with your Supervisor to confirm your understanding of managed service order processes. Please be aware that your local market process may differ, especially for complex order processing; continue to follow your local market M&Ps for specific service processing. Please note support tools are region-specific: ICOMS/BID – California; TOMS – Virginia; and, ICOMS/OPTIX - all other regions.

Managed Services Side-by-Side Guidelines

The Managed Services Side-by-Side Guidelines can be used with any managed service, and are designed to be completed with your assigned Peer Learning Partner. Please be aware that your local market managed services order processing may differ, especially for complex orders. For specific service processing, please continue to follow your local market M&Ps. Please note support tools are region-specific: ICOMS/BID – California; TOMS – Virginia; and, ICOMS/OPTIX - all other regions.

Side-by-Side Guidelines

Product Knowledge

Discuss the features, packaging, and equipment requirements (if any) for this service with your assigned side-by-side Peer Learning Partner. Then, demonstrate the following to your partner.

- ☐ Demonstrate knowledge of the service's main features and benefits; explain the service as you would to a customer.
- ☐ Share any packaging requirements for the service, describe any work order or equipment requirements, and demonstrate you know where to find applicable service codes.

Quality Control

Observe your assigned side-by-side Peer Learning Partner complete quality control on an order for this service. Then, demonstrate the following to your partner based on available guidelines and checklists.

- ☐ Demonstrate how you would QC an order for this service.
- ☐ Identify several common order mistakes made for this service, demonstrate the process for fixing order errors, and identify when it is appropriate to return an order to Sales using change required functionality in OPTIX, BID (CA), or TOMS (VA).

Order Processing

Observe your assigned side-by-side Peer Learning Partner complete order processing for this service. Then, demonstrate the following to your partner.

- ☐ Process the service order in ICOMS or TOMS (VA). Locate a current account in ICOMS/TOMS, key an order for this service into ICOMS/TOMS, and demonstrate knowledge of the correct service codes.
- ☐ Demonstrate the ability to coordinate with managed services vendors for the service.
- ☐ Demonstrate how to schedule customer installation for this service, and identify any other tools needed to process this order.
- ☐ Discuss appropriate procedures for service changes, disconnects, reconnects, transfers, and multi-locations orders.

Continued on next page.

Task Completion

Observe your assigned side-by-side Peer Learning Partner complete task completion activities for this service. Then, demonstrate the following to your partner.

- Verify provisioning is accurate and demonstrate how to send an order confirmation email, how to capture documentation in OPTIX, BID (CA), or TOMS (VA) and how to reschedule an installation.
- Identify any additional OPTIX/BID/TOMS tasks that need to be completed.

Customer Support

Observe your assigned side-by-side Peer Learning Partner complete customer support activities for this service. Then, demonstrate the following to your learning partner.

- Identify the most common support/rescheduling requests for this service and how to resolve them to avoid escalations.
- Role play a conversation with a customer in a professional manner about any order issues; for example, a change in equipment or pricing, or difficulty scheduling installation at a time that works for the customer.

Escalations

- Discuss with your assigned side-by-side Peer Learning Partner when and how to escalate an incomplete customer order and liaise with the proper department to resolve the issue.

Managed Services Knowledge Check

When you have completed your assigned training, contact your Supervisor to take a Managed Services Knowledge Check. The Knowledge Check will consist of completing an end-to-end order of a managed service, as determined by your Supervisor.

Managed Services Supervisor Sign-Off

Your Supervisor will discuss the learning activities in this section with you, clarify any outstanding questions, and ensure that either they or a Peer Learning Partner have observed you perform the tasks covered in this section before signing off on competency.

Supervisor Sign-Off

All assigned tasks in the Individual Learning Plan and the Knowledge Check have been completed successfully. Either a Peer Learning Partner or I have observed this employee perform the tasks covered in this section, and I hereby certify that the employee has displayed competency in the order management processes for all Cox Business managed services.

Employee signature: _____ **Date:** _____

Supervisor signature: _____ **Date:** _____

Networking Services Learning Activities

Refer to your **Individual Learning Plan** to determine your training needs for networking services, and in consultation with your Supervisor complete the identified self-directed learning activities. The following networking services are included in this section:

- MetroEthernet/EPMR
- Wholesale Ethernet
- MPLS IP-VPN In-Market and Cross-Market
- IP-VPN Performance Management Reporting
- Small Cell Managed Services – Indoor
- Small Cell Managed Services - Outdoor

The Networking Services section includes guidance on:

- **Order Management Process:** An overview of the high-level Cox Business order management process for networking services to review with your Supervisor.
- **Learning Activities:** Each service has its own set of self-directed learning activities to complete as indicated in your Individual Learning Plan.
- **Side-by-Side Guidelines:** Complete side-by-sides with your assigned Peer Learning Partner, as indicated in your Individual Learning Plan. The Guidelines are applicable to any service in this section.
- **Knowledge Check:** Contact your Supervisor for the Knowledge Check after completing all required training.
- **Supervisor Sign-Off:** When you successfully complete all training and the Knowledge Check, your Supervisor will sign-off that you are fully trained.

Order Management Process for Networking Services

This high-level overview of the Cox Business order management process for networking services is based on the Cox Business **Simple Order OM Process Flow**, located in iGrafx (for instructions on accessing iGrafx go to the **Locating Resources** section of this Guide).

The Order Management Walkthrough below is designed to facilitate a discussion with your Supervisor to confirm your understanding of networking service order processes. Please be aware that your local market process may differ, especially for complex order processing; continue to follow your local market M&Ps for specific product processing. Please note support tools are region-specific: ICOMS/BID – California; TOMS – Virginia; and, ICOMS/OPTIX - all other regions.

- ☐ Complete the process for setting up accounts in multiple locations.

Networking Services

Self-directed learning activities related to simple and complex order management tasks have been developed for each networking service offered by Cox Business. Refer to your Individual Learning Plan to determine your training needs and complete the learning activities listed for that networking service. Links to resources are provided when available. The Networking Services Side-by-Side Guidelines can be found at the end of this section. Please note support tools are region-specific: ICOMS/BID – California; TOMS – Virginia; and, ICOMS/OPTIX - all other regions. For a consolidated list of all product courses and documents with related links, refer to Appendix A.

MetroEthernet/EPMR (Complex Orders)

Please review M&Ps by accessing the [CoxOne Cox Business](#) Product site. For access to corporate TOMS M&Ps, [visit this link](#). You may also have local M&Ps that apply to this product.

Networking Services Side-by-Side Guidelines

The Networking Services Side-by-Side Guidelines can be used with any networking service, and are designed to be completed with your assigned Peer Learning Partner. Please be aware that your local market networking service order processing may differ, especially for complex orders. For specific service processing, please continue to follow your local market M&Ps. Please note support tools are region-specific: ICOMS/BID – California; TOMS – Virginia; and, ICOMS/OPTIX - all other regions.

Side-by-Side Guidelines

Product Knowledge

Discuss the features, packaging, and equipment requirements (if any) for this service with your assigned side-by-side Peer Learning Partner. Then, demonstrate the following to your partner.

Demonstrate knowledge of the service's main features and benefits; explain the service as you would to a customer.

Share any packaging requirements for the service, describe any work order or equipment requirements, and demonstrate you know where to find applicable service codes.

Quality Control

Observe your assigned side-by-side Peer Learning Partner complete quality control on an order for this service. Then, demonstrate the following to your partner based on available guidelines and checklists.

Demonstrate how you would QC an order for this service.

Identify several common order mistakes made for this service, demonstrate the process for fixing order errors, and identify when it is appropriate to return an order to Sales using change required functionality in OPTIX, BID (CA), or TOMS (VA).

Order Processing

Observe your assigned side-by-side Peer Learning Partner complete order processing for this service. Then, demonstrate the following to your partner.

Process the service order in ICOMS or TOMS (VA). Locate a current account in ICOMS/TOMS, key an order for this service into ICOMS/TOMS, and demonstrate knowledge of the correct service codes.

Demonstrate the ability to coordinate with managed services vendors for the service.

Demonstrate how to schedule customer installation for this service, and identify any other tools needed to process this order.

Discuss appropriate procedures for service changes, disconnects, reconnects, transfers, and multi-locations orders.

Continued on next page.

Task Completion

Observe your assigned side-by-side Peer Learning Partner complete task completion activities for this service. Then, demonstrate the following to your partner.

- Verify provisioning is accurate and demonstrate how to send an order confirmation email, how to capture documentation in OPTIX, BID (CA), or TOMS (VA) and how to reschedule an installation.
- Identify any additional OPTIX/BID/TOMS tasks that need to be completed.

Customer Support

Observe your assigned side-by-side Peer Learning Partner complete customer support activities for this service. Then, demonstrate the following to your learning partner.

- Identify the most common support/rescheduling requests for this service and how to resolve them to avoid escalations.
- Role play a conversation with a customer in a professional manner about any order issues; for example, a change in equipment or pricing, or difficulty scheduling installation at a time that works for the customer.

Escalations

- Discuss with your assigned side-by-side Peer Learning Partner when and how to escalate an incomplete customer order and liaise with the proper department to resolve the issue.

Networking Services Knowledge Check

When you have completed your assigned training, contact your Supervisor to take a Networking Services Knowledge Check. The Knowledge Check will consist of completing an end-to-end order of a networking service, as determined by your Supervisor.

Networking Services Supervisor Sign-Off

Your Supervisor will discuss the learning activities in this section with you, clarify any outstanding questions, and ensure that either they or a Peer Learning Partner have observed you perform the tasks covered in this section before signing off on competency.

Supervisor Sign-Off

All assigned tasks in the Individual Learning Plan and the Knowledge Check have been completed successfully. Either a Peer Learning Partner or I have observed this employee perform the tasks covered in this section, and I hereby certify that the employee has displayed competency in the order management processes for all Cox Business networking services.

Employee signature: _____ **Date:** _____

Supervisor signature: _____ **Date:** _____

Support Tools Learning Activities

Refer to your **Individual Learning Plan** to determine your training needs for support tools, and in consultation with your Supervisor complete the identified self-directed learning activities. The following support tools are included in this section:

- ICOMS
- OPTIX
- BID (CA)
- TOMS (VA)
- MyAdmin
- SOAK
- DocuSign
- Partner Control
- Intermanager
- Vision
- UET

The Support Tools section includes guidance on:

- **Learning Activities:** Each support tool has its own set of self-directed learning activities to complete as indicated in your Individual Learning Plan.
- **Side-by-Side Guidelines:** Complete side-by-sides with your assigned Peer Learning Partner, as indicated in your Individual Learning Plan.
- **Knowledge Check:** Contact your Supervisor for the Knowledge Check after completing all required training.
- **Supervisor Sign-Off:** When you successfully complete all training and the Knowledge Check, your Supervisor will sign-off that you are fully trained.

Support Tools Learning Activities

Self-directed learning activities related to support tools have been developed for each tool used by Cox Business. Refer to your Individual Learning Plan to determine your training needs and complete the learning activities listed for that support tool. Links to resources are provided when available. ICOMS and OPTIX have their own Support Tool Side-by-Side Guidelines, followed by guidelines for other support tools at the end of this section. Please note support tools are region-specific: ICOMS/BID – California; TOMS – Virginia; and, ICOMS/OPTIX - all other regions. For a consolidated list of all product courses and documents with related links, refer to Appendix A.

ICOMS

Please review M&Ps by accessing the [CoxOne Cox Business](#) Product site. You may also have local M&Ps that apply to this tool.

Status	Self-Directed Learning Activities
<input type="checkbox"/> Assigned <input type="checkbox"/> Completed	Navigation <ul style="list-style-type: none"><input type="checkbox"/> Learn: Complete the following course(s) in Learn@Cox.<ul style="list-style-type: none">– Integrated Customer Messaging (ICOMS) [Course ID: CCI_814813]<input type="checkbox"/> Learn: Access and review the following resources on KEY.<ul style="list-style-type: none">– All Documentation for ICOMS [KEY]<input type="checkbox"/> Side-by-Side: Refer to the ICOMS Side-by-Side Guidelines.

<input type="checkbox"/> Assigned <input type="checkbox"/> Completed	<input type="checkbox"/> Learn: Access and review the following resources on KEY. <ul style="list-style-type: none">– Documentation for Remedy (UET) [KEY] <input type="checkbox"/> Side-by-Side: Refer to the Support Tools Side-by-Side Guidelines.

Support Tools Side-by-Side Guidelines

The Support Tools Side-by-Side Guidelines can be used with any support tool (please note ICOMS, TOMS, BID, and OPTIX have their own Side-by-Side Guidelines), and are designed to be completed with your assigned Peer Learning Partner. Please be aware that use of these tools in your own local market may differ, especially for complex orders; please continue to follow your local market M&Ps when appropriate.

Side-by-Side Guidelines

Tool Knowledge

Discuss the support tool's purpose, navigation, key features, and important screens with your side-by-side Peer Learning Partner. Then, demonstrate the following to your partner.

- ☐ Describe the tool's navigation, key features, and important screens of the support tool.

Tool Use

Observe your partner using the support tool as appropriate during simple and complex orders. Then, demonstrate use of the tool to your partner based on available guidelines.

- ☐ Use the tool appropriately during a simple or complex order.

Support Tools Knowledge Check

When you have completed your assigned training, contact your Supervisor to take a Support Tools Knowledge Check. The Knowledge Check will consist of completing an end-to-end order of a product using various support tools, as determined by your Supervisor.

Support Tools Supervisor Sign-Off

Your Supervisor will discuss the learning activities in this section with you, clarify any outstanding questions, and ensure that either they or a Peer Learning Partner have observed you perform the tasks covered in this section before signing off on competency.

Supervisor Sign-Off

All assigned tasks in the Individual Learning Plan and the Knowledge Check have been completed successfully. Either a Peer Learning Partner or I have observed this employee perform the tasks covered in this section, and I hereby certify that the employee has displayed competency in the use of support tools for order management of Cox Business services and products.

Employee signature: _____ **Date:** _____

Supervisor signature: _____ **Date:** _____

Individual Learning Plan Completion

Upon satisfactory completion of all required Individual Learning Plan activities, your Supervisor will confirm completion by signing below. To officially record your ILP completion in Learn@Cox, follow the instructions provided below.

Individual Learning Plan Completion Supervisor Sign-Off

Supervisor Sign-Off

All assigned Individual Learning Plan activities have been completed successfully. I hereby certify that the employee has displayed competency in the order management processes for all Cox Business products and services.
